

ALSO SUNDAY

There were no disturbances in the Anthracite Coal Region Sunday.

SHENANDOAH MINES TO RESUME WORK

It is Expected That the Riotous Scenes of Friday in That Valley on Monday Will Take Place.

Mine Owners and Gen. Gobin are Arranging for the Protection of Workmen on the Way to the Collieries.

Shenandoah, Pa., Sept. 24.—An air of expectancy was noticeable among the people here Sunday, although it would be difficult to find a more peaceful community, the opinion is generally expressed that Monday will witness a renewal of the riotous scenes of Friday. The superintendents of all the mines in the vicinity of this city and Shamokin Sunday reiterated their intention of resuming operations. The strikers, however, declare they will not succeed, at least in the Shenandoah mines.

It was not until afternoon that there was any noticeable activity on the streets. In the morning churches of all denominations were crowded and the sermons were invariably the subject of the mine troubles.

Military Demonstrations. During the afternoon demonstrations were made by the governor's troop and Battery C, which marched through the streets of the city and along the roads leading to the mines. Representatives of the seven collieries about this city filed Gen. Gobin in a body Sunday afternoon to arrange for the protection of their workmen on their way to the collieries. District Superintendent Boyd, of the Philadelphia & Reading Coal and Iron Co.'s workings, informed Gen. Gobin that he had assurances that many of his employees remained away from the collieries only through fear of violence.

Gen. Gobin's Plan of Action. Gen. Gobin early in the day drove through the district which will be the scene of the militia's operations Monday, and after his conference with the mine superintendents, he completed his plan of action. At 6 o'clock Monday morning five battalions of infantry, the governor's troop and Battery C left their camps and marched out on the roads leading to the collieries. The troops continued on the move during the time the workmen were going to the collieries. It is believed that Gen. Gobin has a portion of the troops proceed to Mahanoy City, about three and one-half miles from here, to suppress any disturbances that may occur there.

SCHUYLKILL REGION.

The Situation There is Very Satisfactory to the Officers on Duty—No Serious Trouble Expected.

Harrisburg, Pa., Sept. 24.—The situation in the Schuylkill strike region is very satisfactory to the officers on duty at the national guard headquarters in Harrisburg. Sunday from there Sunday was that everything was quiet, and that no serious trouble was anticipated. Adj. Gen. Stewart was at his office all day in close communication with the troops in the field. Gov. Stone is taking an active interest in the operations of the soldiers, and has been fully advised of their movements.

Mr. Gen. Miller is on duty at headquarters, with Col. Elliott, of Philadelphia, assistant, and Maj. Betler, an aide on the division staff. Col. Richardson, keeper of the state arsenal, has been at his post almost constantly since Friday night, ready for any emergency or to meet any demand that may be made for the troops at Shamokin.

The 4th and 12th regiments are still being held under waiting orders, and if additional troops are needed, they can be on duty within two hours.

Trouble at Shamokin Feared. Shamokin, Pa., Sept. 24.—All was quiet in the strike situation here Sunday, but it is feared trouble may be precipitated by an attempt to start the Cameron colliery in the morning. At a largely attended meeting of the United Mine Workers at Trevorton Saturday night, it was resolved to remove away from Friday until the strike is declared off. John Fahey, district president of the United Mine Workers, went to Hazleton Sunday morning on a call from President Mitchell.

THE RAILROADERS.

It is Possible That in the Scranton Region May Take a Hand in the Miners' Gripe Strike.

Scranton, Pa., Sept. 24.—It now begins to look as if the strike would extend to the railroads, at least in this region. The switchmen had another conference Sunday with their national officers, Grand Master Frank T. Hawley and Grand Secretary John T. Tipton, of Buffalo, to discuss the request of the striking miners that they refuse to handle nonunion coal. Nothing could be learned, however, that was done further than that the national officers and a committee of the local switchmen would go to New York Monday night and return on their way something definite would be done. The purpose of their visit

AMERICAN TROOPS

Special Commissioner Rockhill Will Advise Their Withdrawal as Soon as Possible.

LEHIGH VALLEY.

The United Mine Workers' Officials Meet at Hazleton and Discuss the Strike Situation.

Hazleton, Pa., Sept. 24.—There was absolutely no change in the coal strike situation in the Lehigh valley Sunday and the customary Sunday quietude prevailed.

Sunday afternoon the employees of the Calvin Tardie mine met at Lattimer and the United Mine Workers' held mass meetings at both Epcy and Beaver Meadows. Sunday night the presidents of the three anthracite districts comprising the entire Lehigh valley held a conference with a conference with President Mitchell for the purpose of discussing the situation. It is not now possible in the anthracite region.

THE MINERS' TROUBLES.

The Governor of Pennsylvania Will Be Requested to Have Them Submitted to Arbitration.

Hazleton, Pa., Sept. 24.—The first Baptist church, the leading church of that denomination in this city, Sunday adopted a resolution approving the action of the governor of Pennsylvania to use every effort that can be considered safe to secure the submission of arbitration of the matters in dispute between the miners and operators of the anthracite regions. Concurrent action was expected by 500 of the leading churches in the country, the resolution having been sent to as many ministers, with an appeal for immediate action.

AN AGREEMENT REACHED.

Committees of Amalgamated Association of Iron and Steel Workers and Manufacturers Sign Seal.

Cincinnati, Sept. 24.—At 6:30 o'clock Sunday morning the conference committees of the Amalgamated Association of Iron and Steel Workers and the manufacturers signed the wage scale that will be effective until July 1, 1901.

It is what is known as the yearly scale, which begins with July 1. Owing to the unusual fluctuations of the market the new scale had not been signed when the mills shut down June 20 and the conditions have been unfavorable ever since June, so that the mills have been idle for almost three months. As soon as the scale was signed Sunday morning messages were sent in every direction before the conferees breakfasted ordering the mills built at once. Some of the mills were immediately ordered as soon as possible. This decision means employment to over 60,000 workmen who have been idle since July 1, 1900.

They have been in conference since Wednesday and determined Saturday night to sit tight. They got together or agreed to disagree. One side neither side got what they wanted, yet both sides felt relieved when the scale was signed. The conferees left without sleep so as to be at the mills Monday morning.

President Shaffer, Secretary Nott and the conferees agreed to arrange some details with Commissioner Nutt and they retired about 5 o'clock Sunday morning, but the others did not sleep on the trains en route home for the general assumption Monday. The reasons for the delay in adjusting the wage scale was the frequent prolonged conferences are due to the slump in the market and the fluctuations during the past year from the highest to the lowest point. The workers wanted 35 per cent. based on a one and four-tenths cent rate. The manufacturers offered 34.50 per cent on a one cent rate for bolting and the difference were in about the same proportion in other lines.

Official Statement.

President Shaffer, and Commissioner Nutt jointly gave out the following official statement Sunday:

The rate for bolting is \$4.75 per ton, based upon a one-cent card rate, with the scale being running up to one and two-tenths for the card rate, or \$1.20. But the price for bolting for September and October shall be \$5 per ton, based upon a one-cent card rate of one and four-tenths cents.

Muck rolling shall be one-seventh of the price paid for bolting.

Transporting on sand bottom shall be \$2.00 on a one-cent card rate, with the same base running up to one and two-tenths, card rate.

On bar mills the price to be paid is the same as last year, with a card rate of one and two-tenths cents, graded down to a one-cent card.

On guide (ten-inch and hoop mills) the base and rates apply as they do on the bar mills and ten-inch mills.

Among the mills ordered started are those of the American Steel Hoop Co., at Girard, Youngstown, Warren, Pennsylvania, and Greenville, and of the Republic Iron and Steel Co. at Youngstown, Terre Haute, Birmingham, Muncie, Franklin, Marion, Missouri Sunday afternoon the best carpenter, John and Michael Czaplewski were drowned.

CLOUDBURST IN TEXAS.

Much Damage to Property and Lives Lost on the Neches River at L'Arade, Tex.

San Antonio, Tex., Sept. 24.—A cloudburst in the valley of the Neches river Saturday night did much damage to property and also according to reports received here, resulted in losses of life on the ranches in that vicinity. The Neches at L'Arade rose 25 feet in 24 hours' time and broke telegraph communication. A number of ranches were inundated and one English sheep man, Ethelbert McDonald, together with some Mexican sheep herders, are said to have lost their lives on a ranch in the mountains near Brackett.

From reports of a colony of nomadic Italians it is thought that two lost their lives in the flood that went down the Neches.

GEN. WM. LUDLOW.

The President of the Special Military Board Gives His Opinion of the German Army.

New York, Sept. 24.—Among the passengers who arrived on the steamship St. Paul from Liverpool Sunday was Gen. Wm. Ludlow, who went aboard early in July as the president of a special military board organized for the purpose of studying the military system of Europe, with the view of the formation of a United States war college.

"All European nations," said the general, "have a sort of war college or general staff, a body composed of the ablest men in all the various departments of the army, such as an adjutant general, quartermaster general and commissary general. The United States has nothing of the kind. The commanding general has

the plan to withdraw the German legation from Peking has been temporarily abandoned, pending the receipt of further instructions from Berlin.

INTERESTING NEWS ITEMS.

King Leopold will not abdicate. Retailers of hard coal at Altoona, Pa., have raised the price 50 cents a ton as a result of the strike.

Marshall Arsenio Martinez de Campos died Sunday morning shortly after 10 o'clock at Zarauz, near San Sebastian, Spain.

At Mexico City the American colony and sympathizers have to date subscribed over \$2,000 for the Galveston food sufferers, and the lists are still open.

An expedition under the auspices of the German Colonial society will leave Berlin on November 10 for Togo, West Africa, to make experiments in cotton growing in that region.

An article in a Los Angeles paper advocating the annexation of Mexico to the United States caused the Mexican Herald to deny that Americans in Mexico were conspiring against the political integrity of Mexico.

Thirty-one new cases of yellow fever have been officially reported at Havana since Friday, making nearly 100 new cases in the city.

San Francisco, Sept. 24.—Capt. L. S. Cartwright, 24th United States Infantry, quartermaster's department, who was taken down with the fever last Monday at Camp Columbia, is dead.

HOBSON IN MONTREAL.

He Declares That He Is Not Responsible for the Statement Made in the Vancouver Interview.

Montreal, Sept. 24.—Lieut. Hobson arrived in this city Sunday evening. He was the answer to a question by Adm. Dewey to the interview with the lieutenant sent out from Vancouver. He said he was deeply grieved that Adm. Dewey had taken the matter up in the way reported. He declared that he was not responsible for the statement made in the Vancouver interview. He has been approached by a reporter, and in the course of a conversation had stated that the Spanish ships had been sunk because the plugs were drawn by the Spanish.

He said that it was impossible to sink a ship by hitting it above the water line. Adm. Dewey had, however, compelled the Spaniards to sink their ships, and that was just as effective as sinking them with shells. Personally he had the highest possible respect for Adm. Dewey and his great achievement, and he greatly regretted that anything had been attributed to him which might tend to destroy the glory of the admiral's deeds.

Tornado at Nonesuch, Kan.

Nonesuch, Kan., Sept. 24.—A tornado passed through Nonesuch Sunday evening at 8 o'clock, wrecking two dwelling houses and three barns and slightly damaging half a dozen others. Mrs. John A. Ford was seriously injured and her little son was slightly hurt.

The Last Survivor Dead.

Worcester, Mass., Sept. 24.—George de Voss, the last survivor of the members of the government's expedition which was sent to the American Arctic explorer, in 1895, died here at noon Sunday of a cold, after an illness of only four days.

THE GALE AT ST. JOHNS.

A Collision Between Two French Fishing Schooners—It Is Believed That Forty Lives Were Lost.

St. Johns, N. F., Sept. 24.—Damaged vessels continue to make this port. One report is that the German military machine was the best organized of all the European armies. This is not Sunday, and the day moreover being surrounded by great numbers of men, and consequently on the part of the peace for quick action in times of war. The German officers are the hardest worked of all in Europe. They seem to be drilling and training their men from dawn to dusk. Certainly they have very little leisure and not much time to sleep. One of the results of this hard work is that an army of 1,000,000 men has been mobilized in the time of peace. This action of the United States is peace and in war.
